PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive, data-driven web applications. Proficient in React, TypeScript, Next.js, and modern state management tools including React Query and Zustand. Lead developer of Vworka, owning the full product from concept to deployment. Experienced with SEO optimization, API integration, and performance tuning. Thrives in fast-paced environments where shipping real solutions is the priority.

TECHNICAL SKILLS

Frontend: React, Next.js 15, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, shadcn/ui, Responsive Design, React Native

State Management: TanStack Query (React Query), Zustand, Redux Toolkit, Context API

Backend & Databases: Python, FastAPI, Django, PostgreSQL, Supabase, REST APIs, SQLAlchemy

AI & Integrations: OpenAI API, OAuth 2.0, Third-party API integrations

DevOps & Tools: Git, GitHub, Vercel, GitHub Actions CI/CD, Jest, React Testing Library, Vite, NPM/Yarn

SEO & Analytics: SEO Optimization, Google Analytics, Core Web Vitals, Meta Tags, Site Speed Optimization

EXPERIENCE

Software Developer | Vworka | Lagos, Nigeria | March 2026 – Present

- Led three major application redefinitions to optimize the user verification flow, scaling to 30+ active users.
- Migrated tech stacks and state management strategies to improve performance and developer velocity during rapid pivots.
- Built and managed WordPress pages, implemented SEO strategy using Next.js Metadata API, and tracked performance via Google Analytics.
- Developed core business logic, trust-based verification model, and secure authentication using Supabase and PostgreSQL.

Frontend Developer Intern | Tracmedy | May 2026 – Present

- Built the authentication system — login, registration, and session management for the web platform.
- Developed the waitlist page and lead capture flow for the platform's pre-launch sign-ups
- Built the clinician admin dashboard giving hospitals real-time visibility into patient recovery data.
- Collaborated with backend and design teams to deliver seamless, well-integrated user experiences.
- Translated wireframes into pixel-perfect responsive interfaces using Next.js, TypeScript, and Tailwind CSS.

Frontend Developer Intern | Bondah | Lagos, Nigeria | May 2026 – June 2026

- Redesigned the marketing website to improve user experience and attract more visitors.
- Assisted in building the company's first mobile application using React Native.
- Built the company's first full website from scratch, currently in development.
- Audited and resolved all dead links across the website, improving SEO and user experience.
- Delivered pixel-perfect UI implementations with high attention to design accuracy.

Frontend Developer (Freelance) | Rudratek | Bengaluru, India | Feb 2026 – Apr 2026

- Delivered production-ready features using Next.js 15 with 100% design accuracy from Figma wireframes.
- Optimized application performance and Core Web Vitals, focusing on high-retention user experiences.
- Integrated RESTful APIs and managed complex application state for seamless data flow.

FEATURED PROJECTS

Vworka (Mobile-first Web App) | vworka.com.ng

- Mobile-first web application with trust-based user verification, secure auth, and full-stack architecture using Supabase and PostgreSQL.

Finance Dashboard | fin-track-five-psi.vercel.app

- Interactive financial tracking dashboard with data visualizations, responsive design, and real-time data management.

TrendBoard AI | React, Firebase, OpenAI API, Recharts, TypeScript | trend-board-ai.vercel.app

- Financial dashboard with 0ms API latency via cache-first architecture, AI-driven visualizations, and real-time sentiment analysis.

News Summarizer | Redux Toolkit, Supabase Edge Functions, OpenAI, PostgreSQL | news-summarizer-hazel.vercel.app

- AI-powered news platform reducing reading time by 50%. Refactored from Context API to Redux Toolkit for high-frequency data updates.

AI Summarizer API | Python, FastAPI, PostgreSQL, SQLAlchemy, OpenAI

- REST API that summarizes text using OpenAI GPT-3.5 with persistent PostgreSQL storage. Endpoints for submission, retrieval, and lookup by ID.

EDUCATION

The Engineer Network — Frontend Development Bootcamp (2025)

Chymall Software Development Learning Center — IT Certificate (2021 – 2024)

CERTIFICATIONS

React Frameworks (Udemy, 2025) • JavaScript Modern Essentials (Udemy, 2025) • Tailwind CSS Mastery (Udemy, 2025)
